

BRITESTREAM

MULTICOLOURED LED NICHE LIGHT

Britestream Multicoloured LED light is a flush mounted light which protrudes only 11mm from the pool/spa wall.

Britestream Multicoloured LED light can produce a multitude of different colours without the need for coloured lenses. The light's multicoloured combinations are easily programmed via its light switch.

Britestream LED Light utilises energy efficient super bright LED's and operates on only 15 watts of energy.

- Energy saving – operates on 15% of the energy of a halogen pool light
- Long life – LED life span of over 70,000 hours
- Optional Stainless Steel Rim

The Britestream Multicoloured LED light is cleverly designed with a built in colour memory, which means the light's multicoloured LED's always defaults to its last colour selection. Nine different colour programs are available:
